A resolution was then passed, entitling Greene County to the candidate for the XLIst Congress The nomination of Mr. Cornell was received by all the delegates with reat enthusiasm, and the utmost good feeding was manifested. In the two counties Mr. Cornell is recognized as the representive man of the district full of energy, and munificent in his sharities. He has encouraged and festered every work of public improvement, and is using his vast wealth for the permanent provement in the sharities. He has encouraged and festered every work of public improvement in the unity of the common temporement of his town, eventy and district. Although politically the district is a hard one to change, yet Mr. Cornell's bhances are first-class. He was very prominent among Ulster Douaty men in adding enlistments, he having, in fact, originated and sent forward the 186th New-York Regiment. No better man for the support of the loyal men of Ulster and Greene sould fave been found, and his nomination gives general satis man for the support of the loyal men of Ulster and Green sould have been found, and his nomination gives general satis action.

The Buffalo Commercial Advertiser of the 10th inst. pontains a letter from the Hen. H. L. Cemstock of Warsaw, Wyoming County, in which he consents to run as an independent candidate for member of Congress in the XXIXth District. In repir to inquiries, Judge Comstock states that he is unqualisedly in favor of the repeal of the act increasing the salaries of members of Congress, and also that in view of the high duties imposed upon manufactured woolen goods, which enable the manufacturer to respend monus profits, it seems an increased that the provided wool would be no more than just.

Mr Duan Sen - I have yours of the l4th. I think that is spite of all the reals things that and the crasy schemes that have been proposed by the Randikats this Winter, what has actually been done by Congress merits approbation. All which it has done in a political sense, is to pass the Constitutional amendments. I voted for them, and am ready to stand upon them as the platform of the party. I think the rembers from Totineskee and Arkanasa ought fo be at once admitted to their seats as loyal men, who can take the outh and come from loyal constituencies. If Congress would do that and adjourn, we could go into the canvass this hall without any fear of the Philadelphia Convention, or anything also I think the President has made a great mixtake in taking ground against those amendments. They are in themselves reasonable, wise and popular. It is easy to take exceptions to details, and to the mode in which they have been passed, but the people will not be stopped by these triffes. They will go to the heart of the matter, and judge them on their merits. Yours very truly.

MASSACHUSETTS. SPEECH OF THE HON. GEORGE S. BOUTWELL.
At a grand mass meeting held at Faneuil Hall, Boston,
Thursday evening, the Hon. George S. Boutwell made

At a grand mass meeting field at a case, and a continued as evening, the Hon. George S. Boutwell made the following remarks:

We have seen, for fifteen months and more, the Chief of this Rebellion in the enstody of the Government, held by the authority and under the power of the President as Commander inchief of the array; arrested under a proclamation issued by the President, offering a reward for the capture of his person. During these fifteen unouths, this man, notoriously guilty of one of the highest crimes known to the Constitution and laws of the country, and suspected of another—the most infamous of crimes which has ever marked the catalogue of humanity in all the axes of the world—this mas so publicity charged by the Presidential proclamation, and so notoriously held through these officen months, has settled been set allowed as his inmessnee proclamed, nor been subjected to trial by the laws of the land. I say, why is it that a culprit so known to be unity has not been subjected to trial? Are not all the sufferings of the country through four yours, the saurifies of humanity are so the been allowed to trial? Are not all the sufferings of the country through four yours, the saurifies of humanity the sacrifice, by the hand of an assassin, of the market of the suffering of the country, reasons or occasions why a man known to have been a lender in a part of these proceedings, and suspected of hyping been a lender in other things, are not all these facts an econsion, in not a reason, why he should be tried. and finally the secrifice by the hand of an assassin, of the marky type is president of the country, reasons or occasions why a man known to have been a lender in a part of these proceedings, and suspected of having been a lender in other things, are not all these facts an occasion, if not a reason, why he should be tried according to the laws of the hand! We also know that throughout the Southern Stetes the laws of Congress have not been enforced as they should have been. Congress have not been enforced as they should have been. Congress have not been enforced as they should have been. Congress have not been enforced as they should have been. Congress have not been enforced as they should have been congress will find it to be its dury to inquire into the hand it was a command to the representatives of the people to inquire into all these things. (Applaine, and cries of "Good.") Justice must be done it all these mattern. If the President has performed his duty as he should have performed it, then he is not only acquitted in his conscience, but he will be acquitted by the constituted authorities of the land. But the people of this country cannot afford that the snapicion should rest upon the fact that the Constitution has been violated and the laws of the country disceparded. Posterity will had you responsible if you allow a man in the office of Chief Magistrate to disregard his constitutional authority. Nothing shall be done for parry purposes, nothing with malice, but all in the spirit of justice. We have been disgraced by this man in his timeracy over the West, that we must endure. He has in jubilo speeches assailed a coordinate department of the Government; that we must submit to. In other ways, and at other times he has humiliated the people of this country we must endure our humiliation, in the presence of cursolves and other nations, and timely before posterity. These are not crimes in the eye of the Constitution, for which the effender is to be a man about whom there can be any doubt. (Loud applause.) I

LETTER OF THE HON. JOHN F. POTTER TO THE PRESIDENT.

U. S. CONSULATE GENERAL, B. N. A. P. ?

The the President of the United States.

Sir: But a little more than two years ago, your illustrious and honored predecessor, the lamented Lincoln, conferred upon me without solicitation the position of Consul-General for the British North American Provinces, which I have held up to the present time. When I came here, the fearful conflict of arms, from which our nation has but recently emerged, was still in progress, and I found a very large party in these Provinces led on by Rebel emissaries from the South, and encouraged by the political organs of the Canadian Government, animated by a bitter hostility to the Government of the United States and loud in the expression of their desire that the Union of the States should be severed and our national power forever destroyed. Their sympathy with Rebels in arms against us was warm and outspoken. They had with them in active cooperation the Provincial indges, and the courts over which they presided, with a very lew honorable exceptions. The press in the interest of the Administration was daily filled with the most bitter and violent denunciations of our Government, and with the vitest personal abuse of its then honored chief. After his assassination, and on your accession to the Presidency this alanderous abuse was transferred to yourself and became especially violent and ursparing after your enunciation of those patriotte sentiments in relation to the guilty instigators of the bloodshed and strile which had deluged our fair land with the mean who gave their influence and ursans to destroy the Government should not particlepate in the great work of regularities and officers will have been wantonly spilled, all the glotous receives we have been found to control its destinie; that if this were allowed, then all the precious blood of our brave soldiers and officers will have been near load of the product blood of our brave soldiers and officers will have bee soldiers and officers will have been wantonly spilled, all the glo-rious rictorice won by our noble armies go fur maght; and all the battle fields which have been nown with dead heroes during the Robellion will have been made momorable in rain." As a proof of the intensity of this feeling, I would respectfully refer you to the vile charge publicly made in the newspapers of this oity, over the signatures of two of the leading men of the Rebel-lion then resident here, against yourself as having instignted the assessination of President Lincoln. As soon, however, as you had indicated a radical change in your policy toward the Rebels, a change aimost as great and astounding was apparent here among those to when I have alluded. Those men who con-tinued to villify, slander and abuse Mr. Lincoln up to the time of his assessimation, including the Rebel curissaries from the South, who cause here to incide imprierous raids upon the of his assessment in the control of the control of

the Congress of the United States, a coordinate branch of the Government of which you are the Chief Erkentry, as traitors and ensured of the White- in speeches made during your recent progress through the country—has imparted new life and remewed vigor to all those adherents of the Southern Bebels new domicifed in these Provinces, and are most here. Bebels new domicifed in these Provinces and are most heartily applicabled.

THE FIFTH ASSEMBLY DISTRICT.
To the Editor of The N. Y. Tribune. The Editor of The N. Y. Tribune.

Sir: I notice that in the Fifth Assembly District of Kings County there is some disposition to run an independent Republican candidate in opposition to the regular nomines of the party Capt. Samuel Giberson. A few facts may help to prevent this unfortunate issue and concentrate the energies of the Union men of the District upon the regular candidate. In October, 1861, I was Sergeant-at-Arms of the Richmond Prisoners' Association, having been taken, prisoner at the first battle of Bull Run. At that time I had the sad pleasure of introducing to our companionship Capt. Samuel Giberson and his brave compariots who had been taken prisoners at the disastrous battle of Ball's Bluff. During our confinement I was constantly with him, and came to know him thoroughly, and, with all our comrades in arms, esteemed him most highly as a true patriot, a good citizen, and a man without fear and without repreach. Could we have a voice and our votes would be election in the Fifth District, our voices and our votes would be election in the Fifth District, our voices and our votes would be election in the Fifth District, our voices and our votes would be election in the Fifth District, our voices and our votes would be election in the Fifth District, our voices and our votes would be election in the Fifth District, our voices and our votes would be election in the Fifth District, our voices and our votes would be election in the Fifth District, our voices and our votes would be election in the Fifth District, our voices and our votes would be election in the Fifth District, our voices and our votes would be election in the Fifth District, our voices and our votes would be election in the Fifth District, our voices and our votes would be election in the Fifth District, our voices and our votes would be election in the Fifth District, our voices and our votes would be elected in the nomination and the part of the part
